

DEFENSE-TECH

SECURITY

COMPANY OVERVIEW

Defense-Tech Security Services is a trusted security company committed to protecting people, property, and businesses through expert manpower and advanced technology. We specialize in providing highly trained armed and unarmed security guards, mobile patrols, access control management, event security, and concierge services tailored to residential, commercial, and industrial clients. Alongside our physical security offerings, we install and maintain cutting-edge electronic security systems including CCTV surveillance, alarm systems, biometric and intercom access controls, time attendance systems, security audits, and Perimeter Intrusion Detection Systems (PIDS). Our comprehensive, customized solutions ensure safety, operational efficiency, and peace of mind, driven by professionalism, integrity, and a client-focused approach.

MISSION STATEMENT

To deliver dependable, professional security solutions through highly trained security personnel and cutting-edge surveillance systems—protecting our clients' assets, people, and peace of mind with integrity and vigilance.

VISION STATEMENT

To become a leading name in the security industry by consistently providing trusted manpower and advanced CCTV technologies, setting benchmarks in safety, reliability, and client satisfaction.

OUR SERVICES

SECURITY GUARD & PATROL SERVICES

DTSS offers 24 hours **security guard services and patrol services**. Security guards are stationed at specific locations to ensure safety, enforce policies, and respond to incidents. We also offer patrol services. This involves regular inspections of premises to deter criminal activity, identify security weaknesses, and provide a visible security presence. Our team of men and women are ready to serve and ensure you are protected.

ASSET PROTECTION SERVICES

Assets form a valuable part of every entity, as such we have taken it upon ourselves to offer **asset protection services**. We safeguard your valuable assets such as physical property, intellectual property, and financial resources—through a range of security measures. This includes risk assessment, surveillance systems, access control, and incident response planning. The goal is to prevent theft, damage, or loss while ensuring compliance with relevant regulations and maintaining operational continuity.

GUARD DOG & DOOR SUPERVISION SERVICES

Devotion Security Services has a **guard dog unit** of trained canine units to patrol and protect areas. These dogs are skilled in detecting intrusions, deterring potential threats, and providing a strong psychological deterrent against criminal activity.

We also offer **door supervision**. Door supervisors monitor and control entry and exit, verify identities, enforce entry policies, and ensure a secure environment for employees and visitors. This also entails checking credentials, maintaining order, and addressing any security concerns at entry points.
