COMPANY OVERVIEW

ABOUT US

Thinktech Innovation Botswana (Pty) Ltd is an entity that exists to bring modern day technological and innovative solutions through great rationalism and intellectual ability. We pride ourselves in quality professional services as multi-discipline company that offers: **ICT Services & Supplies** that are appealing to government, NGO's, multi-national companies and financial institutions as well individuals who are seeking revolutionary business solutions. As the fifth industrial revolution is slowly approaching we aim to keep your organisation or business at par with the high standards of the ever changing trends in the world of business and technology.

Thinktech was conceived with a great vision to leave behind a footprint of transformed people and organisations as such we put high emphasis on good governance that relies mainly in growing competence, excellence and building lasting partnerships with all our stakeholders at all times

OUR VISION

We are founded on the concept of being powered by intellect and driven by value, therefore the vision of the company manifests itself in two ways that is:

- To accelerate the world's transition to advanced technology
- To make commerce better for everyone, so businesses can focus on what they do best.

OUR MISSION

To provide clients with quality, professional technical support and business solutions as well as offering unrivaled customer services by embracing ethical and sound business practices

COMPANY STRATEGY

The strategy we have put in place for the company to operate is to facilitate ICT innovation and Business Development for everyone, as well as supporting our clients to achieve their dreams through a bespoke approach.

CORE VALUES

These are deeply engrained fundamental beliefs and principles that guide and dictate the manner in which we conduct our business. They serve as the cultural foundations and basis of our daily business operations. Thinktech Innovation Botswana lifts highly the principles of integrity & honesty, accountability, good customer care and last but not least innovation and result oriented approaches in all its operational endeavors.

INTEGRITY & HONESTY

We are committed to working and treating all our partners with unwavering respect, fairness and truthfulness. We measure ourselves against the highest standards of ethics, integrity and economic responsibility.

ACCOUNTABILITY

We pride ourselves on providing visibility into the successes, and sometimes hiccups, of our business as we grow and scale. We hold ourselves responsible for any outcome even losses. As our motto goes our work is validated by informed scientific methods and procedures.

CUSTOMER SERVICE

If our customers are not berserk or insanely in love with our quality service and welcoming staff, then we have not achieved the level we strive for. At Thinktech we pride ourselves with satisfying knowledge and experience of building long lasting partnerships with our diversified customers. We are more than willing to take steps out of our comfort zone just to make you happy.

INNOVATIVE & RESULT ORIENTED

At Thinktech Innovation Botswana we accommodate and embrace every customer and employee, we take their individual differences as building cornerstones of our diversity and as a chance to innovate, improve and reach milestones that we have never met before. You can trust us for timely and precise solutions – always.
